February 2, 1962

Dear John:

Thank you for your letter of January 15, 1962, which presented some of your views of Ivy's budgeting procedures. It seems that several of the points you raised were among those discussed in WHRB's letter to Bert Decker of January 16, 1962, a copy of which was sent to you and the other Ivy stations. I would be interested in hearing whether that reply in any way affects your attitude on the question of the budget.

I entirely agree that the men currently in the Ivy office deserve our trust in good measure. However, this feeling should not interfere with our responsibility of guaranteeing that not only present but future Ivy business be carried out according to sound procedures.

I shall refer your query about our FM rep to our Business Department.

Best wishes to you and other new WYBC board members for the year.

Sincerely,

Michael S. Rice
